Farm Tour!

# Riparian Stream Bank Protection & Restoration: Many Strategies

**July 27, 2022**  
9am-12pm

Come discuss how farming practices, engineered solutions, stream buffers, and other conservation practices can protect stream banks in SW Wisconsin...and hold soil and improve water quality of streams spanning from WI all the way to the Gulf of Mexico.

The discussion will take place over a (free) lunch at Dave Mellum's farm starting at 11:30am - delicious grilled burgers & shrimp caught by fishermen in the Gulf - whose challenges with nutrient build-up & biological die-off in the Gulf we seek to help through our conservation practices.

(Lunch is free, but we appreciate your RSVP so we can prepare enough food.)

RSVP at: [uplandswatershedgroup.com/  
upcoming-events](https://uplandswatershedgroup.com/upcoming-events)

Linda Kane

9:00 a.m. Linda Kane's Farm  
5925 Bauer Road,  
Avoca, WI

10:25 a.m. Dave Mellum's Farm  
2686 Factory Road,  
Highland, WI
